San Polo D'Enza (RE), March 26th 2008 – The Board of Directors of Greenvision ambiente SpA, a company of environmental engineering focused on renewable energies (construction and management of waste to energy plants, solar powered plants) and on manufacturing of ecologically friendly products for industrial applications, approved yesterday consolidated results as of 31 December 2007.

Group consolidated revenues in 2007 registered an increase by 48% from Euro 124,9 million of FY2006 to Euro 184,8 million, with an organic growth by 17%. A significant contribution stemmed from the consolidation, only for 6 months in 2007, of Ladurner Group, market leaders in planning, constructing, managing technologies and plants for the production of waste to energy, the treatment and disposal of waste, the production of compost and biogas, deriving from waste, from renewable agricultural sources and from water clean-up plants.

Other Group activities in Environmental Area like ecologically friendly products for industrial applications (bio-building, textile, automotive), geosynthetics for drainage, consolidation and erosion control, biomasses collection, registered one again double digit growth. Environmental services significantly increased, confirming growing interest in environmental issues, with a more than proportional increase in margins.

The new **Photovoltaic Division** launched in 2007, offering turnkey solar powered plants, originated very good performance and important projections are expected in 2008.

At the end of February 2008 Greenvision ambiente closed an important agreement with a Swiss Group, Granit SA, for distribution of thermal solar collectors and integrated solar roofs, used for the production of hot water from solar energy. The transaction also provided a license agreement for development of innovative technologies for the production of energy from waste and from renewable sources. These technologies are synergically integrated with Greenvision ambiente activities.

Gross Operating Profit (EBITDA) increased by 53% compared with previous year from Euro 11,1 million to Euro 17 million. Operating Profit (Ebit) also increased by 74% from Euro 7,1 million to Euro 12,3 million and Profit Before Tax (Pretax) reached Euro 8,5 million. FY2007 closed with a Net Profit to Euro 5,7 million, tripled compared to Euro 1,7 million in FY2006.

Balance Sheet of the Group as of 31 December 2007 included Euro 79,8 million of Tangible and Intangible Assets increased mainly for the change in consolidation area. Net Worth

changed over Euro 56,2 million from Euro 29,9 million effected by change in consolidation area and a capital increased occurred in 2007 by Euro 12,2 million. Operating net financial debt, based on organic consolidated area, was Euro 49,5 million to which added the medium/long term loan of Euro 16 million used to partially finance the acquisition of Ladurner and the net debt of the latter as of the end of 2007, equal to Euro 32 million. Ladurner net debt also included Euro 8,5 million of advance loans against two important plant job orders, a waste to energy plant in La Spezia and new equipments in Fusina, one of the main plants for the production of renewable energy which raises each year 265.000 tons of waste from the Venice county being able to produce 90.000 tons/year of waste to energy used by the near power station (ENEL). These job orders are in course of conclusion.

DIVIDENDS

The Board is recommending a dividend of Euro 0,120 per share. Subject to shareholder approval, detachment of coupons will be made on 26 May 2008 and the dividend will be paid on 29 May 2008. Shareholders are convened for an Ordinary Meeting on 28 April 2008 in first call and on 02 May 2008, in second call.

OWN SHARES

The Board intends to propose to the next Shareholders' Meeting an extension of 12 months for the purchase of own shares (buy-back). Purchasing of own shares will be made in accordance with Art. 132 of Law Decree n. 58 dated 24 February 1998 and Art. 144 Bis, lett. B subparagraph 1 , Consob Regulations 11971/99.

OUTLOOK

In consideration of Group back log order for photovoltaic division and waste to energy, where Ladurner distinguishing for its capacity of manufacturing and management greater and greater waste to energy plants, and with the other growing Group activities, management expects a further double digit growth in 2008.
